## Characteristics of the bats of eastern Canada.1

Species	Fur Colour	Forearm (mm)	Weight (grams)	Foot (mm)	Ear (mm)	Tragus Shape	Calcar	Notable Traits
Big Brown Bat (Eptesicus fuscus)	Brown to blonde; glossy fur	47	13 to 25	10-12	17-18	Broad and rounded	Keeled	Puffy, bare muzzle; face is distinct; musky smell
Evening Bat <sup>2</sup> (Nycticeius humeralis)	Dark chocolate or dull buff	36	5-14	7-8	14-15	Short and rounded	No Keel	Distinct smell (burnt feathers); looks like a small Big Brown Bat; puffy bare muzzle but only two upper incisors.
Little Brown Myotis (Myotis lucifugus)	Long, glossy fur, brown to light brown, belly often a shade lighter or buff coloured	38	7-8	8-11	13-16	Longish but slightly blunt ("butter knife")	No Keel	Long toe hairs (beyond claws), contrasting wings with body <sup>3</sup>
Indiana Bat <sup>2</sup> (Myotis sodalis)	Fine fluffy, not glossy dark gray to brown above, grayish below	38	5-11	7-10	11-16	Slender and pointed	Keeled	Short toe hairs, pink nose, uniform in color, wings do not contrast with body. Never has condensation in winter.
Northern Myotis (Myotis septentrionalis)	Not glossy, brown above, grey below	35	5-10	7-10	16-19	Long, slender, pointed ("steak knife")	No keel	Wide wings, ears extend past nose by 3mm <sup>3</sup>
Hoary Bat (Lasiurus cinereus)	Yellow ruff around brown face; dark fur with frosted tips	53	20-35	6-13	17	Short, blunt, curved	Keeled	Very large bat; very fluffy, will emit a guttural hiss when threatened, furred tail membrane
Eastern Red Bat (Lasiurus borealis)	Males red; females grey- red	40	8-16	9-10	8-13	Short, blunt, curved	Keeled	Furred tail membrane
Silver-haired Bat (Lasionycteris noctivagans)	Black to brown; usually frosted fur on back (not always)	41	7-16	7-11	14	Blunt, lobed	No keel	Tail furred; rounded black ears with pink edge at the base
Tricolored Bat (Perimyotis subflavus)	Sandy brown to orange – fur tricoloured	33	4-7	8-10	13-15	Blunt, straight	No keel	Pink forearms, black wings
Eastern Small-footed Myotis ( <i>Myotis leibii</i> )	Blackish brown above, pale below	32	4-6	6-8	13-15	Sharply pointed	Sharp keel	Black mask, longish tail (33mm)

<sup>&</sup>lt;sup>1</sup>Information adapted from table compiled by Dr. Tim Carter, Dept. of Biology, Ball State Univ. (765) 285-8842 -- tccarter@bsu.edu, 2009

<sup>&</sup>lt;sup>2</sup>These species are considered accidental in Canada.

<sup>&</sup>lt;sup>3</sup>There can be overlap in measures and features for these species; discriminating species of bats can be challenging.
